

EnergyDots

from: The Firm Slimming & Health Clinic

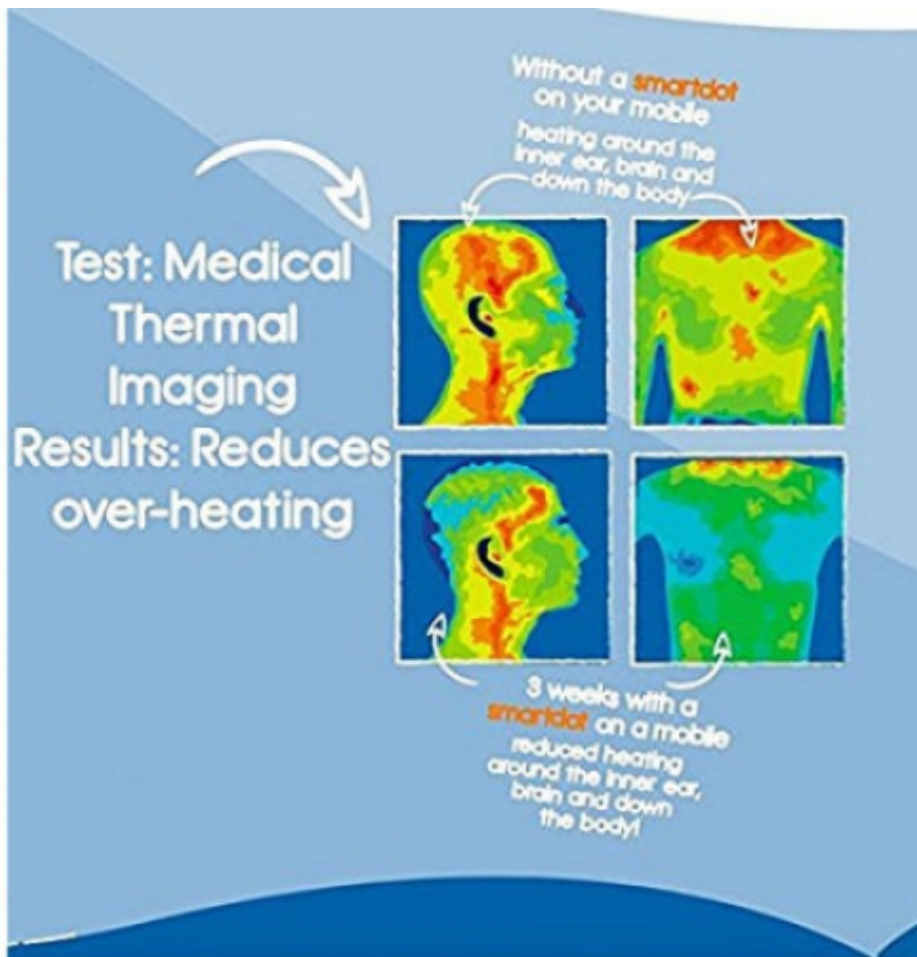

Price: £0.00

Date: 2019-07-15 13:44:13

Expiration Date: 0000-00-00 00:00:00

Description

What is EMF ? Our EMF exposure today is extremely high. You cannot smell, taste or see EMF radiation but you are immersed in it all day every day. Many people feel immediate effects and many more are affected without realising it. Low energy, poor sleep, lack of concentration, headaches a feelings of being unsettled and/or stressed are experienced by a huge percentage of people but very few would link these feelings to their use of technology. World Health Organisation The WHO/International Agency for Research on Cancer (IARC) has classified radiofrequency electromagnetic fields as possibly carcinogenic to humans (Group 2B), based on an increased risk for glioma, a malignant type of brain cancer¹, associated with wireless phone use. Many people are now looking for EMF protection for themselves and their families. If you want to protect yourself ideally you would use a smartDOT on all your EMF devices and wear a bioDOT so you have EMF protection when you are out and about. What are EnergyDots ? All of our much loved gadgets are EMF devices. Mobiles, cordless landlines, computers, laptops, tablets, games consoles and controllers, baby monitors, wi-Fi routers, smart meters all emit EMF and so are categorised as EMF devices. Energydots are EMF protection devices. They act as transformers. They harmonise or retune the electro-magnetic frequencies to a natural energy which does not affect the body in the same way. smartDOT is an essential element if you are looking fo
