Description

Professional Email is an email that is linked to your domain. So rather than using a free account such as gmail or hotmail, you'll be using, for example, 'info@yourdomain.com' or 'sales@yourdomain.co.uk'. There are many different services out there but here at Island Web Design we think we provide the best value with great support and advanced security and spam filtering. Our UNLIMITED package includes: UNLIMITED email addresses UNLIMITED server space Spam & Virus Protection Secure Certification Technical Support We can provide full email management and set up all your mail boxes. We can then provide you with the settings you need to add these mailboxes to your PC and phone or we can do that for you as well (depending on location). Alternatively, we can provide you with your personal log-in to manage your account yourself. All our packages include: Brute Force Protection DDoS Protection Web Based Email Reliable Cloud Network
