At Arks, Runs & Coops, we craft long-lasting, practical and beautifully designed chicken coops and runs for backyard poultry keepers across the UK. Based in Staffordshire, our team hand-builds every product using high-quality materials like tanalised timber and ultra-durable, weatherproof Stokbord - a recycled plastic used in agriculture. Whether you're new to keeping hens or a seasoned pro, we've designed our coops to be easy to clean, low-maintenance, and secure from predators, all while blending naturally into your garden. Our signature model, the Fezziwig Coop, the Pip, Garland, and various chicken runs, reflect our commitment to form and function. We focus on features that matter: lip-free floors for simple

cleaning, raised designs to deter vermin, and optional smart accessories like automatic door openers. With a reputation for solid build quality and customer satisfaction, Arks, Runs & Coops is the go-to choice for anyone who wants a coop that looks great and stands the test of time.
